mechanic of hiding behind the cover. [207] The series was a pioneer in the integration of cinematographic techniques in videogames, [4] [6] especially Metal Gear Solid that Eurogamer considers the "first modern video game". [4] Several chief fights have been praised by their variety and strategy required to overcome them. [208] [209] The series is	
known for its scenes of fourth draft walls. [208] [210] History has been commented to maintain a "rich characterization" while playing some controversial issues. [60] [205] The ambitious guion of Hideo Kojima in Metal Gear Solid 2 has been praised, some call him the first example of a postmodern videogame, [76] [211]] [212] [213] While others have	
argued that anticipated concepts such as politics of Posverdad, false news, resonance chambers and alternative facts. [214] [215] [216] [217] The narration of the series in general has received praise for being between "fascinating science histories in any medium". [218] The cutting scenes of the series have often been praised by their graphics and	
acrobatics of the characters. [219] [220] However, a common critic has been the length of scenes, as well as some parts of history. [221] [222] The unexpected introduction of Raiden as the main protagonist in Metal Gear Solid 2, due to his lack of appearances in the Trailers of the Games and how he replaces the favorite character of Fans Solid	
Snake, has been considered one of the most important parts Contributed from the entire series. [2] 23] [224] The audio of the series has been acclaimed to the point of receiving prizes for its use of sound and music. [225] [226] The Metal Gear series inspired numerous videogame developers. After the defects of The Boss to the Soviet Union, It is sent	
to Russia to kill it and put an end to the threat posed by Yevgeny Borisovitch Volgin, a colonel of the GRU with plans to overthrow the Soviet Government.
